INTRODUCTION

ABOUT US

Human Aid UK is an international humanitarian charity which strives to alleviate the suffering of the oppressed.

OUR VISION

Bringing hope to life

OUR MISSION

Connecting hearts of the oppressed as a result of man-made disasters; by providing empowerment and independence. This is a result of creating initiatives that provide actual benefits.

OUR COMMITMENT

Human Aid UK promotes sustainable economic and social development, by working closely with community members from all walks of life. Our commitment is making sure people affected by conflict have access to at least the minimum requirement for a dignified and secure life; this includes access to clean water, sanitation, food, nutrition, shelter and healthcare.

WHERE WE WORK

We work in coalition with our dedicated partner organisations in remote areas of the world. This allows us to implement an array of projects which brings positive changes to the lives of millions. We currently distribute aid in selected regions of Africa, the Middle East, South Asia and the United Kingdom.

SYRIA

Despite the challenges Human Aid UK have continued to work in Syria. An overview of what has been achieved this year:

SYRIA ORPHAN RELIEF FUND

We have continued to show support for the Syrian orphaned children. The monthly allowance of £35 provides for the educational sponsorship of an orphan.

The Orphans programme consists of the following subjects; English, Maths, Biology, Arabic and Islamic Studies.

SHELTER, SETTLEMENT AND NON FOOD ITEMS

DAR AL SALAAM - SHELTER

We have converted a disused industrial building into a safe and functional shelter in Lebanon for Syrian orphans and widows. The furnished shelter caters for 22 widowed families displaced from Syria.

WINTER PACKS

We have provided Syrian families with blankets, jackets, fuel and heaters.

CONTAINER PROJECT

We have sent three containers into Syria. One was filled with food and clothing and two more with four ambulances. They are now serving the needy inside of Syria.

HEALTH ACTION

EMERGENCY MEDICAL SERVICES

The war in Syria continues to amass further civilian casualties. Our ambulance services continue to help the people. In 2016/17 we provided another 4 new ambulances.

FOOD SECURITY AND NUTRITION

22 Syrian refugee families received food packs for 4 months and 5 Qurbani have been distributed to Syrian refugees in Lebanon

GAZA

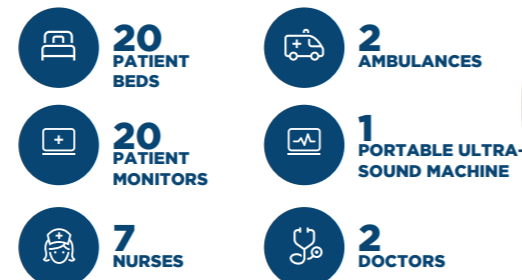

Human Aid UK have continued to work in Gaza. An overview of what has been achieved this year:

HEALTH ACTION

AL SHIFA MEDICAL CENTRE

In its third year running, Human Aid UK has continued working with the Ministry of Health in Gaza; supporting the central hospital, Al Shifa Medical Centre. Al Shifa has been stretched beyond capacity, with medicines in short supply, inadequate equipment and shortage of fuel and electricity.

We have committed to maintaining the running cost and salaries for the hospital. A third Ambulance has been planned to be purchased for the emergency services team.

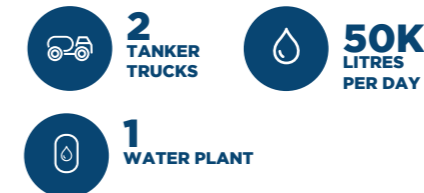

WATER SUPPLY, SANITATION AND HYGIENE PROMOTION

WATER TANKER AND CLEAN WATER SUPPLY

The lack of clean water in Gaza has caused health problems amongst the population. Often, these health problems are due to the increased proportion of nitrate salt, chloride or both: which are found in the ground water for drinking.

We have continued to support the water project for the third year now. The water tanker distributes clean drinking water around the Gaza strip and provides supplies to mosques, hospitals, families and schools. A second Water Tanker has been donated to increase water distribution.

SHELTER, SETTLEMENT AND NON FOOD ITEMS

WINTER PACKS

We have provided families in Gaza with blankets, jackets, fuel and heaters.

FOOD SECURITY AND NUTRITION

IFTAR AND QURBANI

460 families received Iftar packs and 4 Qurbani distributions were made to 80 families across Gaza.

BANGLADESH

Human Aid UK have continued the work in Bangladesh. An overview of what has been achieved this year:

FOOD SECURITY AND NUTRITION

IFTAR AND QURBANI

571 people received iftar packs and 8 Qurbanis have been distributed across Bangladesh.

Bangladesh is the fourth most disaster prone country in the world. In 2016 alone, floods, landslides and cyclones affected over 12 million people and caused hundreds of deaths.

Located close to two active tectonic plates, the country is also exposed to significant risks of major earthquakes.

Bangladesh is one of the most densely populated countries in the world. With the population estimated at 165 million and the poverty in the country is deep and widespread.

BURMA

Through established local networks, Human Aid UK has continued to maintain the support for the displaced Burmese families residing in scattered areas of Bangladesh and Malaysia.

Countless people are still left without the right to live in land, and with little to no support, their lives depend on getting support and aid from charities. The lack of assistance for unregistered refugees and host communities have led to tensions over scarce resources e.g. water and firewood. Consequently, this has escalated to physical and sexual hostility towards refugees, in particular women and girls. Unfortunately there is no legal protection for the undocumented refugees.

Human Aid UK have continued helping the Burmese families. An overview of what has been achieved this year:

HEALTH ACTION

We provided 300 vaccination for Burmese refugee children.

YEMEN

We have started to work in Yemen since 2015. Our first operation provided iftar and Qurbani. An overview of what has been achieved this year:

SHELTER, SETTLEMENT AND NON FOOD ITEMS

WINTER PACKS

We have provided families in Yemen with blankets, jackets, fuel and heaters.

THE GAMBIA

Poverty in The Gambia still remains the central concern and development cannot continue without international support from aid agencies.

SHELTER, SETTLEMENT AND NON FOOD ITEMS

SCHOOL AND ORPHANAGE

We have successfully completed the construction of the orphanage. The orphanage houses 90 people and contains 1 classroom, 1 ICT room, 10 communal wash rooms, and 10 dormitories.

MINIBUS

Our minibus is used for transporting students and a taxi for income generation purposes. This will help establish long term self-sustainability. We have purchased a new minibus in 2016/17.

FOOD SECURITY AND NUTRITION

IFTAR AND QURBANI

33 people received iftar packs and 8 Qurbanis have been distributed across The Gambia.

AGRICULTURE

AGRICULTURE

A cow provides people with milk, which is a form of protective food. Moreover, livestock also meets people's food requirements.

TREE PLANTING

We have planted 70 seeds for orange trees which will be grown on farms which will help to alleviate poverty by providing income and food for poor families.

WATER SUPPLY, SANITATION AND HYGIENE PROMOTION

Poverty in Gambia is often caused by a lack of access to clean, safe water and proper sanitation. The water will be supplied to the school, the orphanage and the local village.

UNITED KINGDOM

As part of our work we have a responsibility to help the local community in the UK. An overview of what has been achieved this year:

HEALTH ACTION

We have successfully helped children in 3 hospitals in Greater Manchester to celebrate Eid. Our volunteers took gifts that had the children surprised and excited, which was also responded with joy by parents and staff.

100% DONATION POLICY

Human Aid UK is fully committed to operating on a 100% donations policy. Every penny donated is strictly for the charitable purposes.

Indeed, Allah commands you to render trusts to whom they are due and when you judge between people to judge with justice. Excellent is that which Allah instructs you. Indeed, Allah is ever Hearing and Seeing. (Surah Nisa Verse 58)

Human Aid UK understands the importance of 'Amanah' and the responsibility and accountability it brings. It is why every single pound that Human Aid UK receives is fully allocated to its designated cause and not a single penny is removed for other purposes. For example, if a donor gives £35 with the intention of helping an orphan, we ensure the orphan receives the full £35.

All the charity's administration costs are covered by:

- Donations specified for administration.
- Income generated from recycling.
- Profits received from the Human Aid UK social enterprises.
- Grants from various organisations.
- Tax reclaimed from the UK government's Gift Aid scheme. This allows taxpayers to increase the value of their donation by 25%. This additional money is allocated to the charity's administration fund with your permission.

GET INVOLVED

Human Aid UK's work was built around volunteers. To this day, we rely on volunteers.

Ways you can help:

- Organise and participate in events to raise awareness and funds.
- Distribute leaflets, posters and literatures.
- Highlight campaigns through social media.
